TITLE: Property Buying and Rental System using Zoho Creator (SaaS)

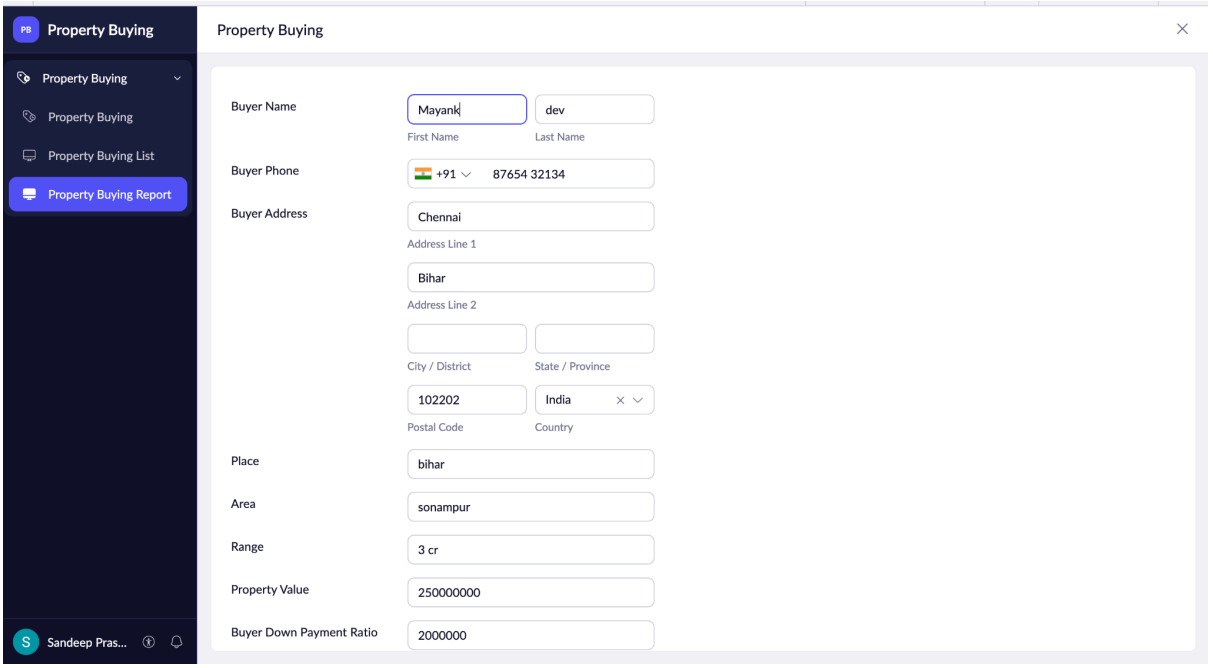

AIM:

To create a simple cloud-based software application for the Property Buying and Rental process in Chennai city using Zoho Creator to demonstrate Software as a Service (SaaS).

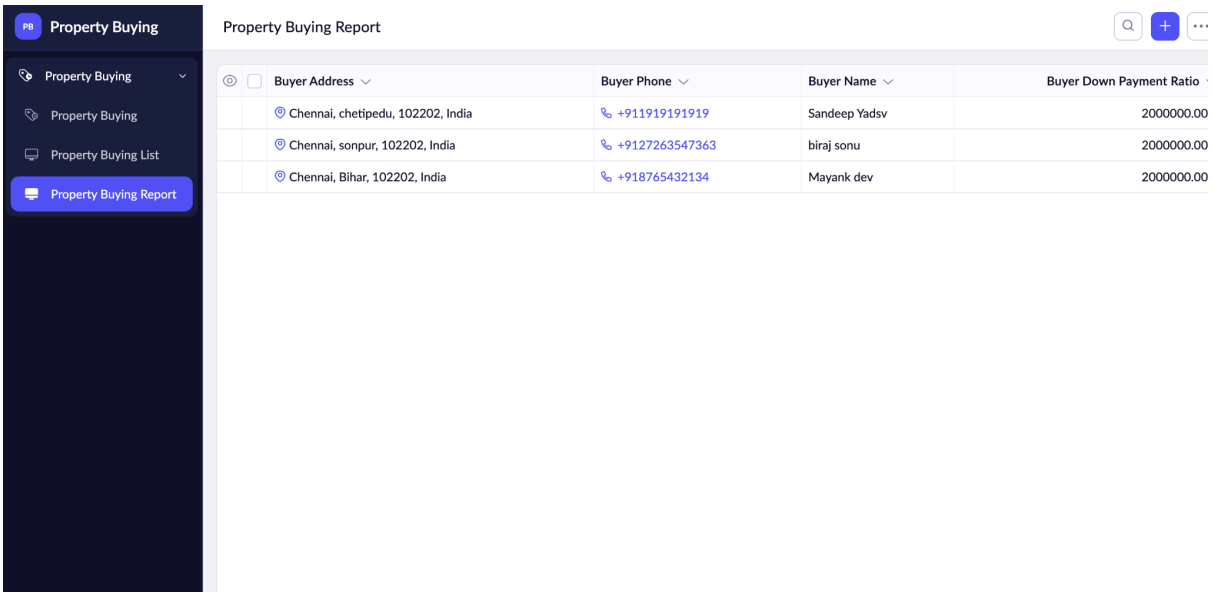

PROCEDURE:

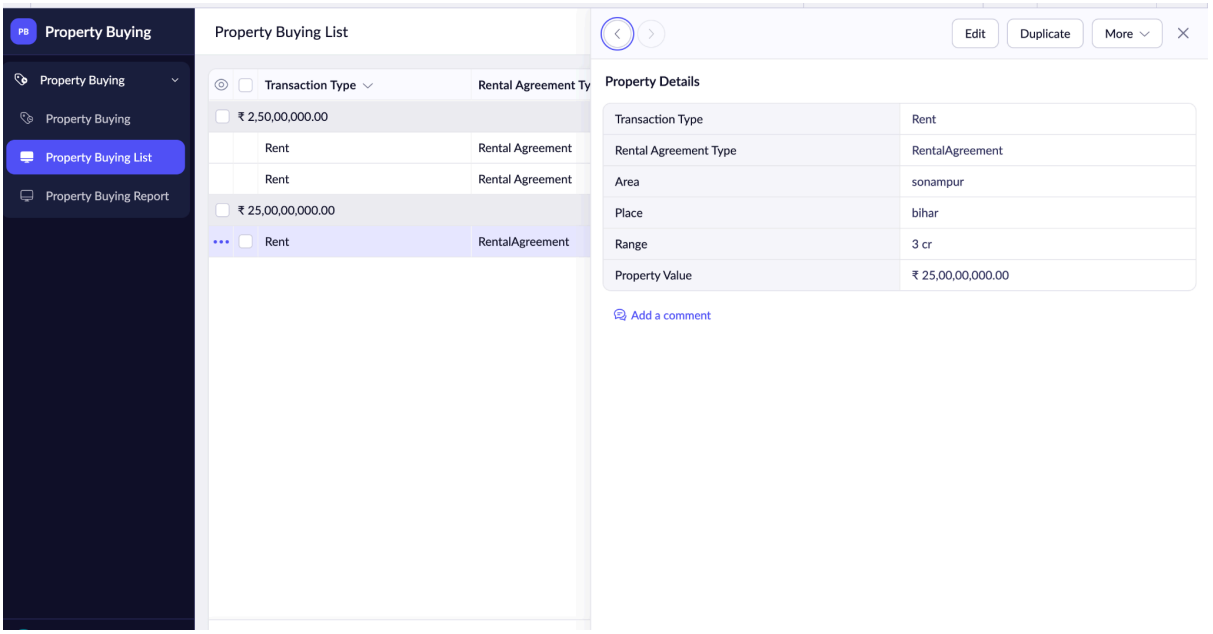

1. Open Zoho Creator and sign up or log in.
2. Create a new application named Chennai Property Management System.
3. Create a form named Property Details Form.
4. Add fields such as Buy, Rent, Residential, Commercial, Rental Agreement, Area, Place, Price Range, Property Value, Property Type, and Contact Details.
5. Include Chennai locations such as Anna Nagar, Tambaram, Velachery, and T. Nagar in the Place field.
6. Configure the fields as required and save the form.
7. Test the application by entering sample property details and submitting the form.
8. Publish the application using Zoho Creator's publishing options to make it accessible through the internet.

Input:

Output:

RESULT:

Thus, a simple cloud-based Property Buying and Rental System for Chennai city was created using Zoho Creator to demonstrate the concept of Software as a Service (SaaS).
